“Impromptu Homework #2”
Due at the start of class Oct. 13

Sue is currently working 40 hours per week at a wage rate of \$15 per hour. Sue also has \$40 of non-labor income per week. All employees wear uniforms at work. Her employer decides to institute a uniform cleaning fee of \$100 per week. Does this affect her hours of work choice? If so, does she work more or less? Use a graph in your answer.
