

Grades will be determined as follows :

HW: 10 percent

Quizzes: 25 percent of the total. All quizzes given and likely graded in your assigned section.

Midterm: 20 percent: to be held Friday Feb 9,

Final: 45 percent. as per schedule

Total: 100 percent, as it should be.

Note on HWs. Only the WebAssign HW is graded. I have assigned additional HW, listed as “More Homework” that either I wrote myself or that is directly from the text.

In some instances [eg for week 2] this additional ungraded HW will more accurately reflect what will be on the quiz. To get an ‘A’ in the class I expect you will have to understand and be able to do at least all of the starred problems of this ‘More Homework’ part.
