My first day in Camping
The other year I go
to Camping we's my family
and the friends of my dad
and my mom. It was fun
my first day for Camping To
Sanfrancisco laguna.

First we Driver for 5
hours for get spais for
Slip. wen my dad and my
brothers was so happy for
the first day to Camping.

then we find spais
and we pud the stuff and
the first we pud the
houses for Slip and we
pud the floor and one
spais.

Finally we awoke
because my mom telas
to it and then go onther
the water.

Con Clucion I laket
te go to Sanfrancisco laguna
for the other year

3^t
yrs

Big Basin

Last year we went to camping for want day but this year is going for five days in another camping please and is going to be fun.

Last year we went camping and was cool day to camp. First we got there but was hot so we went to swimming because all of us were hot so we went to the moutains and was a river up there. Went we were in the river and we started to swimming and get wet and we were playing games. In the end we were playing in the water going to swimming was fun.

In the night we went to eat because we were hungry so we were eating hamburgers and chips and I soda then we went to a campfire and was big the fire like if his going to blast. Then I teacher was telling storys but there were not that scary but the storys were cool them we were telling jokes and there were funnin. Being in a campfire is cool.

Lastly we were going to the beds but we went to the bathrooms so we don't want to go when we are in the cavings. So we now were going to sleep the cabin was dark but the teacher Juan went to get a lamp so didn't be dark so his time to sleep. In the afternoon we went back to the school and went home.

+4 yrs Great America

Two months ago I went with my family to Great America. It was cool over their.

One day me and my family were going to my aunt's house. When we got their my cousin was waiting for us outside. Inside the house my aunt was packing stuff so we could go. My mom and my aunt were talking and they decided to eat at Denny's. And then we left for Denny's. It was exciting.

Then when we got Denny's we all came out of the car. And then my aunt said that we should wait for her in Denny's. After 2 hours we waited my aunt came with more people. When we were eating my brother, me, and my cousins were talking a lot about Great America. The food was so good.

Finally when we got to Great America we found a parking lot and we parked their. When we got out of the car we went running to the gate and when we got inside we got a map of the park. Then we went on all kinds of rides and the fastest ride was the roller. When we got out of all the rides we went to eat some sandwiches and they where good. And when we were done we went in the car and we left home. It was so fun over their.

We
We
It's fun to go on trips. If you where their it would be so fantastic.

Fourth Of July

Two years ago me and my family got together at my house for the fourth of July.

To begin, me and my dad went to the store, to buy fire crackers. First, we looked at every thing in the store, till we saw the fire crackers. Then, we chose the most cool ones of all the crackers to take them home. Finally, we payed for them at the cash register and we took them home. Buying the things made my soul fly away to heaven.

Next, we waited for the sun to go down and the moon to raise, so we could turn on the fire crackers. First, we called all the family members to come join us at the house. Then, we turned on all the fire crackers that every body had bought. Finally, when I was turning on the crackers I burnt my finger, so I put ice on it. Turning on the fire crackers made me happy.

Finally, my grandma went to the kitchen to cook some for the family. First, we ate some enchiladas with some beans on the side. Then, we ate some pork with some beans on the side. Finally, we ate posole with some corn on the side. I had never ever tasted food so good in my life.

All in all, my fourth of July was so fun, I hope I can live to see eighty-nine more fourth's of July's.

Gradution Day

Do you know what I did last.
No. Well I'll refrecon your memory.
Last week I went to Georgia for
my brothers graduation from bootcamp.

To begin we got ready for the big day. First we got all our clothes ~~and things~~ and ~~put them~~ in a couple of suitcases. Then we bought a tickets in the Okland airport. Finally we got some grub and flew off to Georgia.

A couple of hours later we got to Georgia and drove to my brothers boot camp. In his boot camp we saw a couple of vehicles like tanks, medics, and halftracks. We also saw where he sleep. And where he works out. Seeing my brothers boot camp was awesome.

Minutes later and the Graduation bega. First was the breafing. Then was the turning blue ceremony. Finally in honor of America we had to do the salute.

So now you know what I did last week.

Eo 2 2042

All in all going to camp is cool I wish I be
ther for more days.
