

### Tips:

- When choosing individual videos, be mindful of padding inside the borders to avoid unwanted actions
- Actions require 2 seconds after frame has begun to see visual results
- Refresh the page each time to reset the interaction.

### Basic Actions:

- Click → frame continues to animate throughout interaction
- Hover → frame animates until next frame

### Try This!

- Click anywhere on empty space to trigger the start of the program. With your cursor, hover over one video of your choice to see the consequential reactions.
